## CO. ACCEPTS OFFER FOR WATERWORKS

PURCHASE TO BE RATIFIED BY SPECIAL ELECTION

The principal work of the village council at its last regular meeting was to formulate an offer to be made to Salling Hanson Company for the purchase of their waterworks system. The offer was considered by the directors at their monthly meeting held here last week Wednesday and the offer was formally accepted.

The correspondence that led up to the final transaction appears incorporated with the official record of the council proceedings and is published below. We are sure it will be of considerable interest to the property owners of the village and also, very enlightening.

The next step will be to arrange for the special election to ratify the purchase of the system by the people. The present owners will discontinue their lumbering here in a short time when the service will be discontinued.

## RECORD OF VILLAGE COUNCIL PROCEEDINGS

Present: H. Petersen, president; Trustees Thomas Cassidy, Emil Giegling, A. L. Roberts, E. G. Shaw and George W. McCullough.

Absent: T. P. Peterson.

may vote called. All members present voting yea. Motion carried.

Moved by Thomas Cassidy and supported by E. Giegling that the bill of \$98.58 for the board and room of Alden Hotel, at the county infirmary, be laid on the table and presented to the Board of Supervisors for reimbursement. All members present voting yea. Motion carried.

To the President and members of the Common Council: Your committee on finance to whom was referred the matter of the amount necessary to be raised in the several funds for village expenses for the ensuing year, respectfully report that they have had the same under consideration and investigation and do herewith respectfully recommend that the amounts stated below be authorized to be spread on the taxable property of the village of Grayling for the year 1927, to wit:

General Contingent fund, 14% Highway fund, 4% Sewer fund, None

In making this recommendation your committee is anticipating that next year it will be necessary for a waterworks and this should permit doing so without undue embarrassment.

EMIL GIEGLING, GEO. W. McCULLOUGH, Committee.

Moved by Giegling and supported by McCullough that the report be accepted and adopted. All members present voting yea. Motion carried.

Resolution of the village council, passed at its last regular meeting, to the effect that the committee on sewers for investigation and to report at the next meeting.

The president appointed the following members of the common council to serve on the board of review: A. L. Roberts and George W. McCullough.

A letter from the Salling Hanson Company regarding the purchasing of their waterworks system was read. After giving it very careful consideration a motion was made by Roberts and supported by Shaw that an offer of five thousand dollars for their entire waterworks system, including all mains, pumps, pump house and pumping equipment, be submitted to them for their approval and subsequent ratification by the qualified voters of the village of Grayling. This offer was made in lieu of their offer of ten thousand dollars for their system. All members present voting yea. Motion carried.

Moved by Roberts and supported by McCullough that the clerk be instructed to draw an order for \$25.00 for the Grayling Post No. 106 of the American Legion, for Memorial day expenses. All members present voting yea. Motion carried.

Application of R. W. Chappel for caretaker at the tourist park, placed on file for future consideration.

Moved by Giegling and supported by Cassidy that the clerk be instructed to draw an order for \$25.00 for the Grayling Post No. 106 of the American Legion, for Memorial day expenses. All members present voting yea. Motion carried.

ROY O. MILNES, Village Clerk.

H. PETERSEN, Village President.

Grayling, Michigan, May 2, 1927.

Mr. Hans Petersen, Pres., Village Council, Grayling, Michigan.

Dear Sir:

In January of this year the Village Council inquired regarding price on our Water Works system. In reply to said inquiry our Company under date of February 7th, 1927, made you a offer of the finance committee be accepted, proposition comprising our entire and the clerk be instructed to draw Water Works system, including orders for the amounts. Yea, and pumps and pumphouse at a price of

## The Last Day

There is still another side to this matter and that is the question of finances.

It is our desire to avoid the question of a bond issue to finance any part of this project. It is our hope that the matter can be worked out on a cash basis.

However, the last place very decided limits on the amount that can be raised in any one year for this purpose.

Barring an additional assessment of one-half of one per cent that can be levied for a special fund for projects of this kind, we are permitted to levy for waterworks and contingent fund combined not more than one and one-quarter per cent in any one year.

You can readily appreciate the position in which this places us. With a decreasing total tax valuation facing us every year, it will require a lot of figuring to make both ends meet.

So in considering this offer, gentlemen, we trust you will give very careful consideration to the present status of the village, that it is in the transition period from a lumbering town to a more really modern town, that it will have many difficult problems to meet during this period, and that in view of these conditions, this price, in our judgment, is the fairest that the village can afford.

We presume it is your desire, as it is ours, to have this matter definitely settled at an early date and, if after having gone over this communication, you desire any further information, or we can be of any assistance in the matter, we shall be very glad to meet with you at whatever hour and place you may designate.

Very truly yours, The Common Council of the Village of Grayling, By President.

Grayling, Michigan, May 12, 1927.

Mr. Hans Petersen, Pres., Village Council, Grayling, Michigan.

Dear Sir:

This will acknowledge receipt of your letter dated the 10th inst., in which you offer us \$50,000.00, subject to ratification by the enrolled voters of the village, for our entire Water Works system as it now stands, including all water mains and pipe lines, hydrants, pumping station, two pumps and stationary boiler, and also a sufficient plot of land to permit your continuing the pumping plant where now located, and the erection of a tank, if so desired on our part.

In making this offer, we have endeavored to give every consideration not only to the value of the present system as a going concern, but also to its future usefulness to the village, and in support of same, we submit the following:

In the first place, we have endeavored to map out a program with relation to the future water supply of the village that will prove both practical and conservative, one that will, if carried through to its end, provide a permanent system, adequate for the village's need at all times, at the lowest possible cost and without the necessity of a bond issue.

Using the present system as a nucleus, the first step we have in mind is the installation of electrically driven pumps. This would be absolutely necessary and only a matter of practical economy, as if we continue operating the system as at present, with steam driven pumps, using coal for fuel and being obliged to require the services of at least two men, perhaps three, to operate the power plant, the operating expense on that alone would prove enormous and run so much in excess of the contentment of revenue that the taxpayers would be obliged to shoulder a deficit each year.

Even so, with electrically driven apparatus, the operating expense may run quite high, due to the apparent necessity of operating the pumps continuously. It was at first thought it might be possible to install a tank and thus take away the continuous pumping. However, tests made at various times of the present pumps indicate a flow of anywhere from 400,000 to 600,000 gallons of water per day of twenty-four hours. This is an enormous amount of water for a town the size of Grayling, and until this condition is rectified, a tank would be useless, as it could not be filled rapidly enough to keep the flow constant.

Leakage at the taps and unmetered service may account for some of this excessive amount of water being pumped daily, yet it appeals to us there must be other contributing causes, when we take into consideration that 50,000 to 75,000 gallons per day of twenty-four hours is normal consumption for towns of this size.

It must be admitted that we are buying a pig in a poke, so to speak, when we come to the question of the mains. Regardless of what has been said on this subject, no assurance can be given us that the mains are in first-class condition, that they will stand up under more than ordinary pressure, or that they will permit extension to the present system. Rather, the benefit of the doubt is very much ours on these points.

We have outlined to you in the above a few of the real serious questions that are confronting us in connection with the present system.

Now, we turn to the question of the \$50,000.00. Now here is how we have appraised the system: The pump house, 2 pumps and boilers, \$2500.00 New main laid this spring, 2500.00 19 hydrants at \$50.00, 950.00 All the old and new pipes, nothing \$5050.00

All for \$5,000.00. We can see our way clear to install a new electric motor and pump, all without levying extra tax and replace a street of the old pipes, every year, and in a short time we will have a new up-to-date system, all paid out of the revenue, and without extra cost to the taxpayers. All we ask now is that you will kindly give us your sanction by voting yes at the special election, which will be called shortly.

Respectfully yours, H. PETERSEN, Village President.

YOUNG BRIDE FETTERED

Complimenting Miss Ellen Knight, a May bride, Mrs. Ambrose McClain very delightfully entertained a company of young ladies at a miscellaneous shower Saturday evening.

The affair took place at the bride-elect's new home, that is furnished and ready for the young couple.

The rooms throughout the home and the tables were very pretty in Miss Ellen's chosen colors, gold and blue. Five hundred was enjoyed by the guests, after which a delicious two-course lunch was served.

The hostess informed the bride-to-be that there was a gift for her in every nook and corner of the rooms if she would look for them herself, and a search by her revealed many beautiful and useful gifts, which she graciously accepted.

## HOSPITAL DAY DREW BIG CROWD

The weather man doled out fair weather on National Hospital day last week Thursday and two good sized crowds attended the celebration of this national event by Mercy Hospital. People came and some were escorted through the hospital and were shown the many pleasant and comfortable rooms with their immaculate beds and furnishings, the modernly equipped operating room, the X-ray room, the dining rooms and kitchen, the beautiful little chapel on the second floor and other features that make up a modern hospital. They were received graciously by the Sisters and nurses.

Two programs of entertainment were given, one in the afternoon and one in the evening, each of which had been arranged by Mrs. C. G. Clippert. The afternoon program was as follows:

Selection—High School Orchestra. (Mrs. B. E. Smith, director.) Vocal Duet—Mrs. Roy Milnes and Mrs. Frank Tetu.

Dance—Elaine Reagan and Joyce Smith. Vocal Solo—Marie Schmidt.

Selection—High School Orchestra. Vocal Duet—Mrs. Clippert and Mrs. Jarmin.

Dance—Jane Keyport. Vocal Solo—Mrs. Frank Tetu. Ladies Quartette—Mrs. Clippert, Mrs. Milnes, Miss Salling, Mrs. Jarmin.

Selection—High School Orchestra. Refreshments of sandwiches, coffee and cakes were served and everyone enjoyed a very pleasant afternoon. The front veranda of the hospital was decked with large American flags and flowers, and was very attractive.

The program of the evening was made up mostly by a band concert by the Grayling band under direction of Ed. Clark, former leader of our own home band. Interspersed with the band numbers were vocal selections by ladies and men's quartette, and an address by T. W. Hanson. The program was as follows:

March, Bravura, by Double. Overture, Panorama, by Barnhouse. Ladies Quartette, Mrs. Clippert, Mrs. Milnes, Miss Salling, Mrs. Jarmin.

Waltzes, Falling Leaves, by Sereely. A Little Scotch Comedy, by Barnhouse.

Male Quartette, Messrs. Jarmin, H. A. Anderson, Messrs. Polka, by Garry. Earl Meyer, soloist.

Box Trot, Moonbeam Kiss Her for me, by Remick. Double Mixed Quartette.

Overture, Under a Circus Tent, by Jarrel. Talk on Mercy Hospital—Mr. T. W. Hanson.

Bartons Solo, Aye Varrie Eugene Laney, soloist.

March, Onward Christian Soldiers, by Chambers. Star Spangled Banner.

Mr. Hanson, in his address, gave a resume of the history of the hospital, and told of the great things it was doing for this community and this part of the state, and how it had been blessed to hundreds of people of the north at times of illness and distress. The usefulness of Mercy Hospital to the people of the north is too well known to need any great elaboration. Established as it was, by the people through the efforts of our beloved Dr. Stanley N. Insley, it continues to merit their continued support and to live up to the traditions of its founder. Through his vision of the future of needs of the north and by his ambition, he was able to found here this most useful and humane institution. The foundation he succeeded in so substantially laying has seen a wonderful growth and has kept abreast of modern methods and equipment.

The hospital has had a busy year and has taken care of many many patients. Some are well able to pay for the service they receive, and they do pay; many cannot pay but their sufferings must be looked after. None are turned away when they need help, whether they have money or not.

The Sisters and nurses, as well as the doctors, are needed every day, even though at times they may have had little rest themselves. The nurses are pledged to help suffering humanity and they are never failing in their duty. The training school for nurses has turned out many nurses, all of whom have made good in their profession and been a credit to themselves and to Mercy Hospital, where they received their training and to the local physicians and Sister nurses, who taught them their profession.

There is a shortage of student nurses at present and an opportunity for several young ladies to enroll.

After the band concert in the evening the members of the band and many others were served refreshments. Many people gathered and wished to contribute financially toward the hospital fund that day, but the Sisters stated that National Hospital day was not intended for raising money and declined to accept gifts that day.

The affair was given under direction of Mercy Hospital Aid society and was exceptionally well carried out. The day was pleasant and the hospital was arrayed in charming manner and the large crowds that gathered there to do it honor were in their happiest moods, and the entertainments given were most interesting, thus making this probably the finest National Hospital celebration ever held in Grayling.

To Have Electric Sign For some time it has been felt that some kind of sign should be placed at the hospital telling what it is, as hundreds of people passing there

have no knowledge of what kind of an institution it is. A plan was hit upon that day to give a dancing party that night at Temple theater, the proceeds to be used toward the purchase of an appropriate electric sign, which will go a long way toward making for such a sign, and proved to be a jolly party and a fitting ending to a perfect day.

## BIG CROWD SEES SENIOR CLASS PLAY

"THE BRIDE BREEZES IN" MADE BIG HIT

"The Bride Breezes In," presented by members of the Senior class Friday evening of last week in the high school auditorium, proved a very pleasing comedy drama and was exceptionally well presented. It was a matrimonial affair from start to finish in which all players get their love affairs straightened out and finally visit the preacher. The play was sparkling with fun and pathos.

The scene of the play was a summer home in Long Island. Earl Gierke, as Sam Cortez, guardian of Fanny Lay, had embezzled the funds of his ward and faced criminal charges that would have sent him to prison. Believing that he could mitigate his offense by so doing, he induced his son Alfred, characterized by Lacey Stephan, to consent to marry the heiress.

Marguerite Hanson, as Fanny Lay, the heiress, visited the Cortez home, bringing with her, Stella Thompson, her maid, which part was taken by Gertrude Laskos. Not wishing to reveal her identity at first, the heiress and maid exchanged names and positions. Upon their arrival at the Cortez home the supposed heiress at once began an ardent flirtation with her intended future husband, much to the embarrassment of the latter and those of the Cortez home. But her father, with prison staring him in the face, quite encouraged his son to marry the irrepressible young lady, quite against the wishes of the latter. Miss Laskos, in her cheery and happy manner, quite furnished the comedy of the play, and kept the audience in an uproar most of the time.

After learning that her fortune has been squandered by her guardian, Marguerite Hanson, as Fanny Lay, the real heiress, faced the former and denounced him in an unparliamentary language. All this time the intended victims of the plot, Fanny and Alfred, each became involved in a love affair which culminated just before the close of the play in marriage. And Stella (Miss Laskos) became smitten on both the handsome chauffeur, a part taken by Norval Stephan, and they too were happy ever after.

Shirley McNeven, as Goldie Mandel (Peig, a vaudeville star in disguise) was none other than Alfred's old sweetheart who has been saved face in order to meet the wishes of his father. Heavily veiled, the marriage took place and after the ceremony Goldie revealed her identity, much to the surprise of her husband who believed he was marrying the heiress.

In the evening he will speak on "The New Adventure," basing his message on Eccl. 11:4.

A Thought for the Week "A man may give without loving, but a man cannot love without giving."

Gregg Neil, secretary to Sam Cortez, the part taken by Lacey Stephan, fell in love with the real heiress and after a troublesome love affair, finally ended in a match.

Freddie Burke, a friend of Cortez's son, played by George Schroeder, and Helen Schumann as Lolly Gray, Al's cousin, found the paths of true love full of intricacies and misunderstandings, and Miss Helen with her improved lisp at times of trouble, made it appear quite real.

Emma Hanson, as Mrs. Neil, Cortez's housekeeper, took her part in an exceptionally fine manner, and she

It was a happy little play and the audience was well pleased, and the people were quite generous in their praise of the players. Miss Tisworth, principal of the high school and Senior class advisor, is deserving of considerable credit for the success of the play for her able instructions and direction. She and the members of the cast spent several weeks in rehearsal, which meant much personal effort and the sacrifice of much time by each.

The class treasury is enriched by about \$80 because of the play. Miss Carrie Finkhauser, class treasurer, when asked what they intended to do with the money replied, that they would have a "skip day" and if there was anything left it would probably be spent for stage equipment.

## Summer Cottages

built this way are cool and comfortable

In no other way can so much comfort be built into a summer home for so little money as with Celotex Insulating Lumber.

This remarkable lumber, made from the long, tough fibres of cane, does what no ordinary building materials can do. It practically stops heat. It shuts out wind and moisture.

The comfortable coolness of a cottage built with Celotex is a delightful surprise. And if you want to use your cottage late in the season, Celotex will keep it snug and warm.

The cost of such a cottage is no more than the cost of one built with good lumber. Celotex is used for both exterior and interior finish. When painted, it will resist the weather quite as well as wood lumber. And it is much stronger in wall sections than wood. The broad, strong Celotex boards are easy to handle and apply. Sawn and nailed as wood lumber.

We sell and recommend Celotex. Ask us for sample and prices.

**R. D. Bailey, Co. Agricultural Agent**

"A good part of agriculture is to learn how to adapt one's work to nature, to fit the crop scheme to the climate and to the soil and the facilities. To live in right relation with his natural conditions is one of the secrets of the wise farmer, or any other wise man learns."—L. H. Bailey in "The Holy Earth."

Nels Knudsen has built a small barn and had a good drive well put down on his farm in Beaver Creek. He has bought a forty adjoining his original land on the east.

Allen B. Failing is running this Beaver Creek farm this year. He, too, is taking out every stump as he comes to it, in the piece that he limed five years ago. He plans to stump	subimate solution, as other years, to prevent scab and several other diseases. We hand-selected the seed last fall at digging time by taking the most ideal potatoes from the highest
